

Instructions on how to install **Autochartist** plugin for **MetaTrader4** terminal

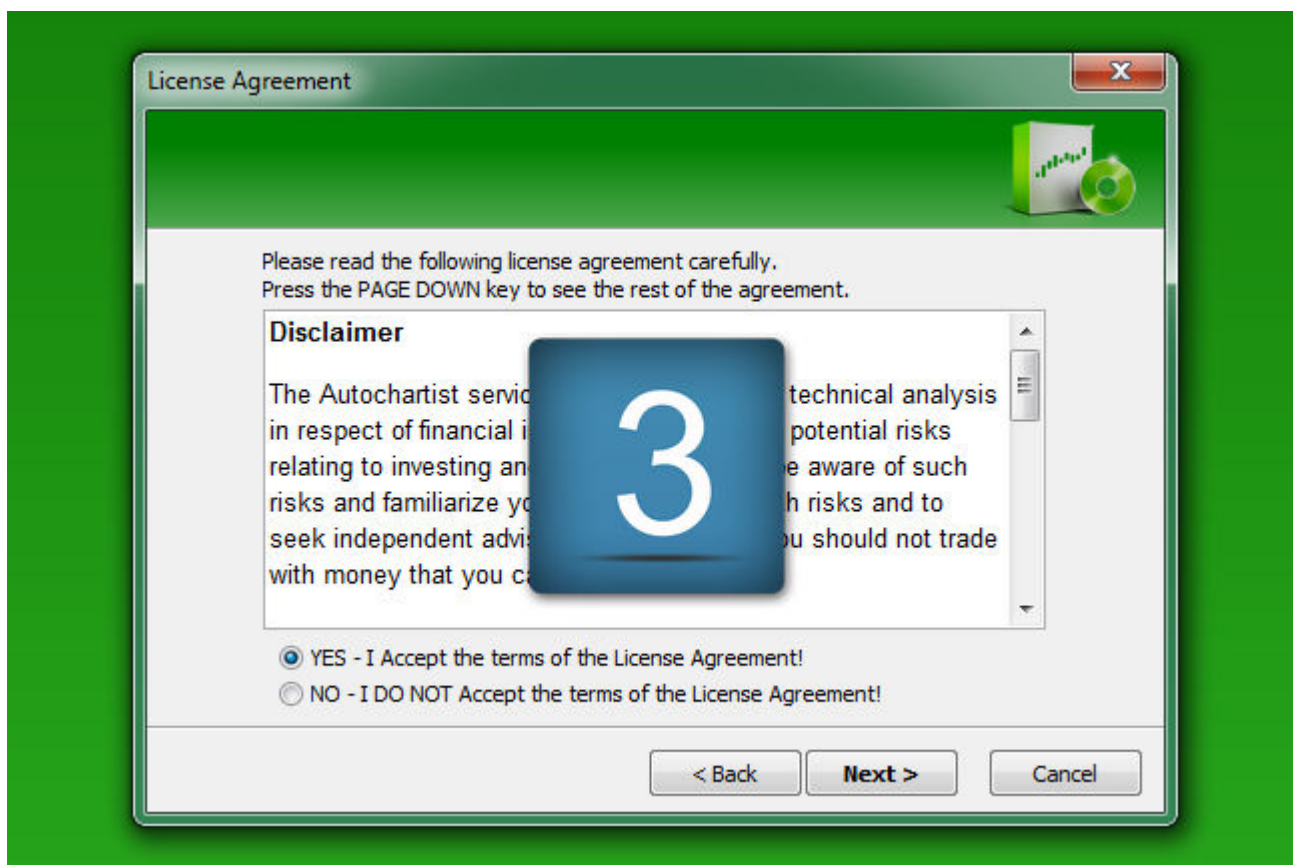

1. Download and run [AutochartistROBOFOREXMT4Setup.exe](#). Select installation language and click "OK".

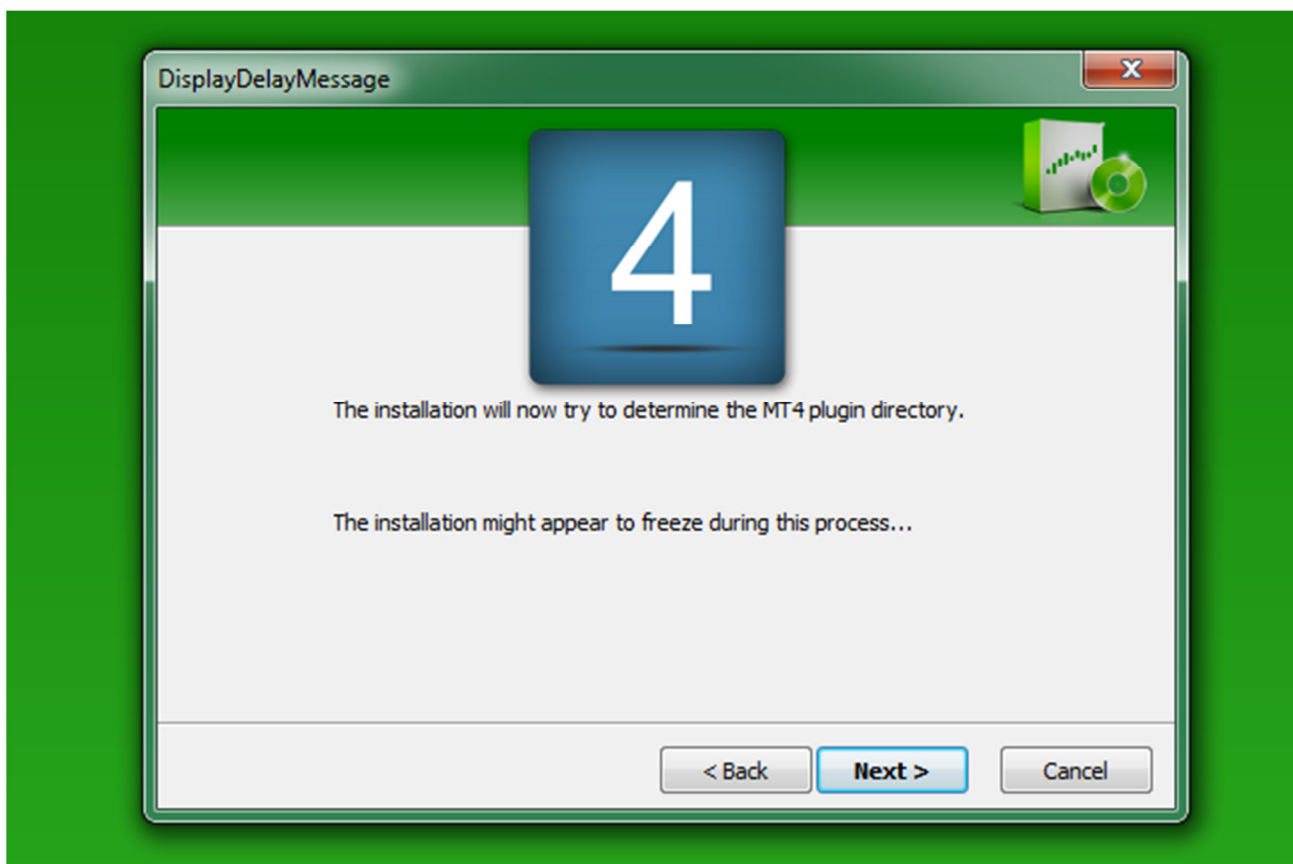

2. Click "Next".

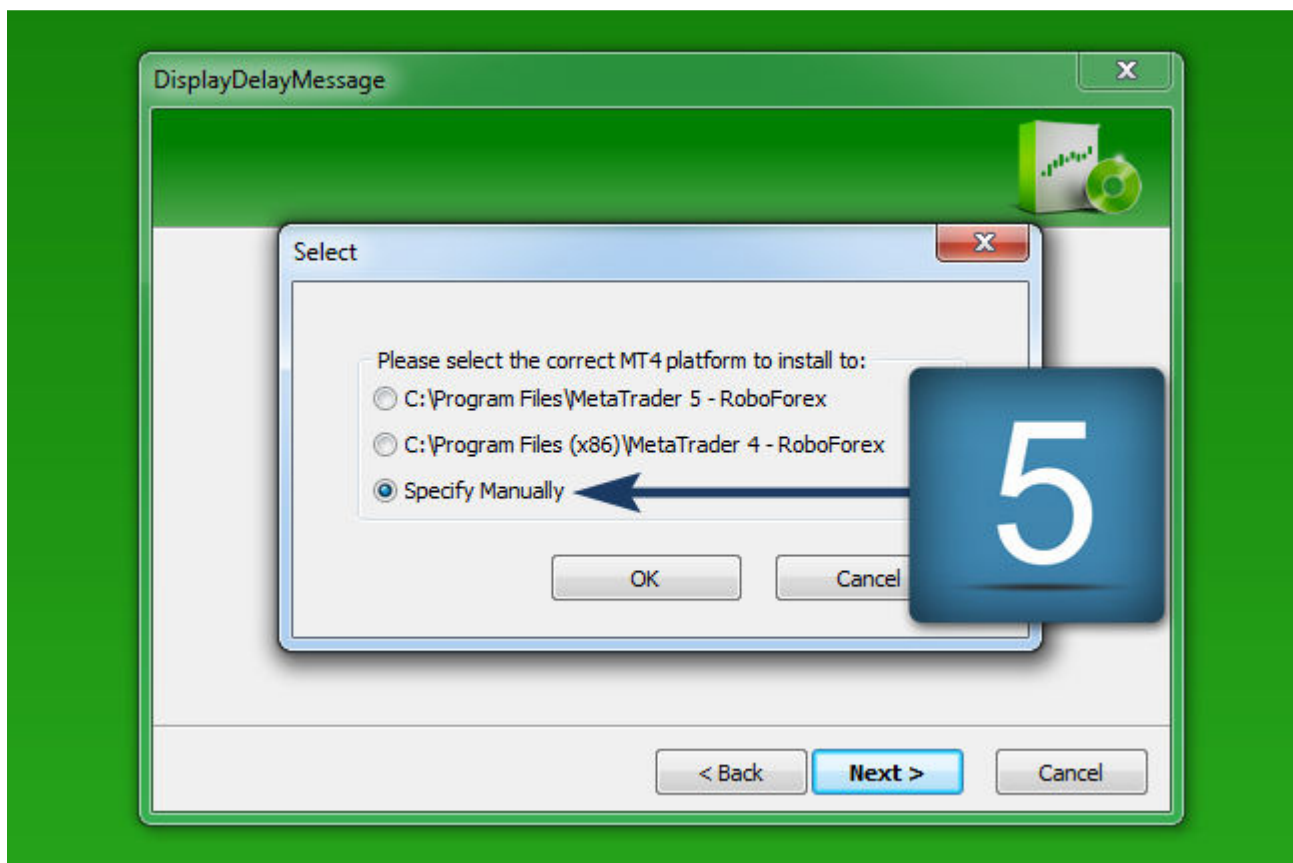

3. Select "YES – I Accept the terms of the license Agreement!" and click "Next".

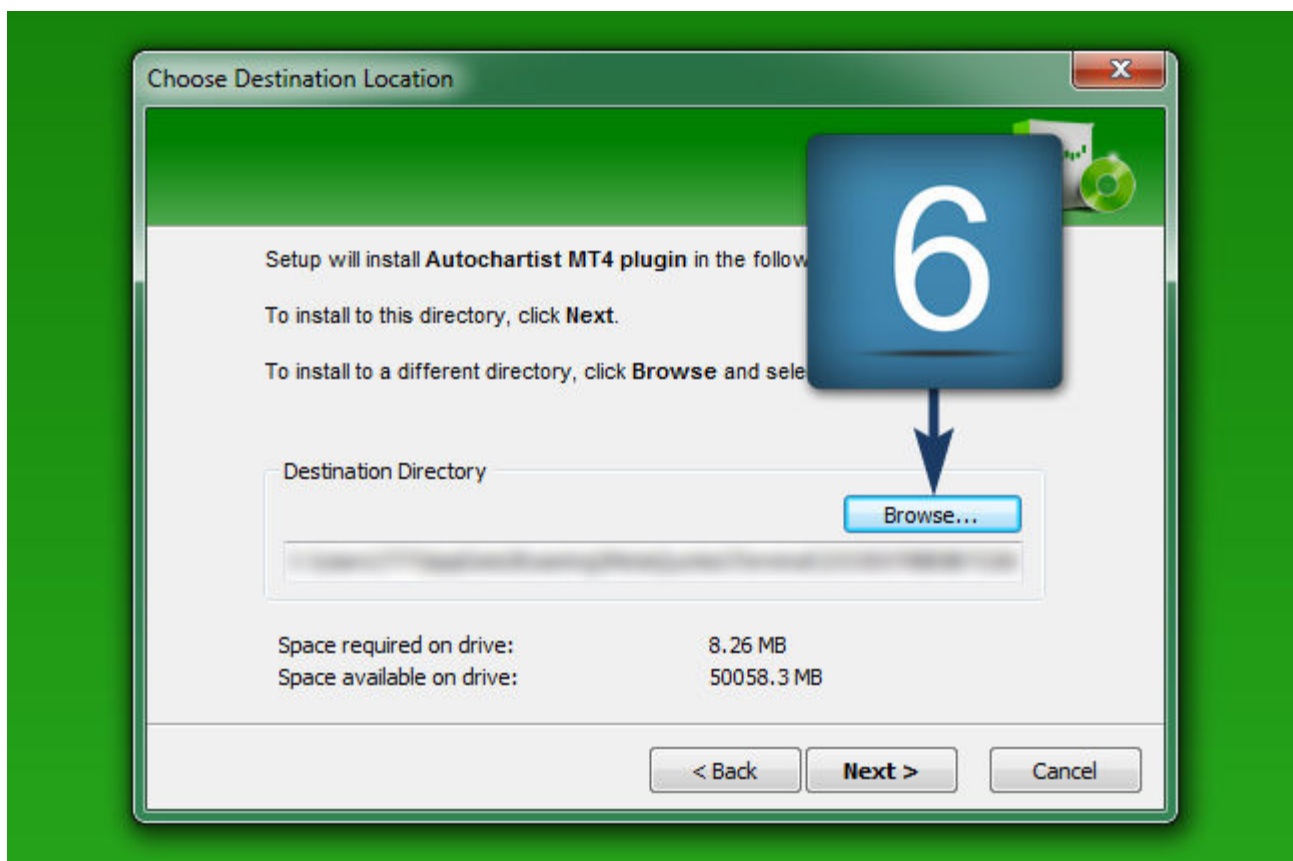

4. Click "Next".

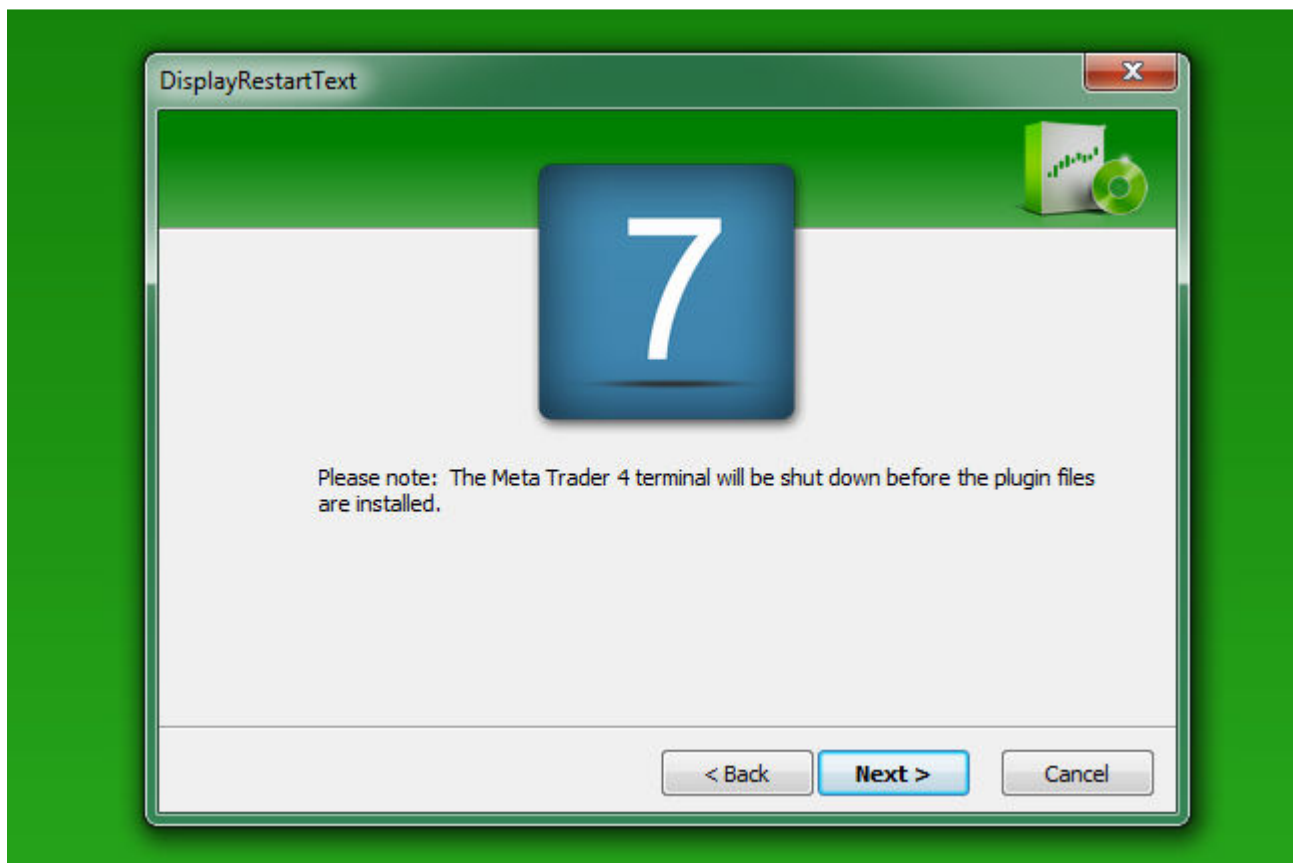

5. Select "Specify Manually". It will allow you to select the destination directory for installation. Click "OK".

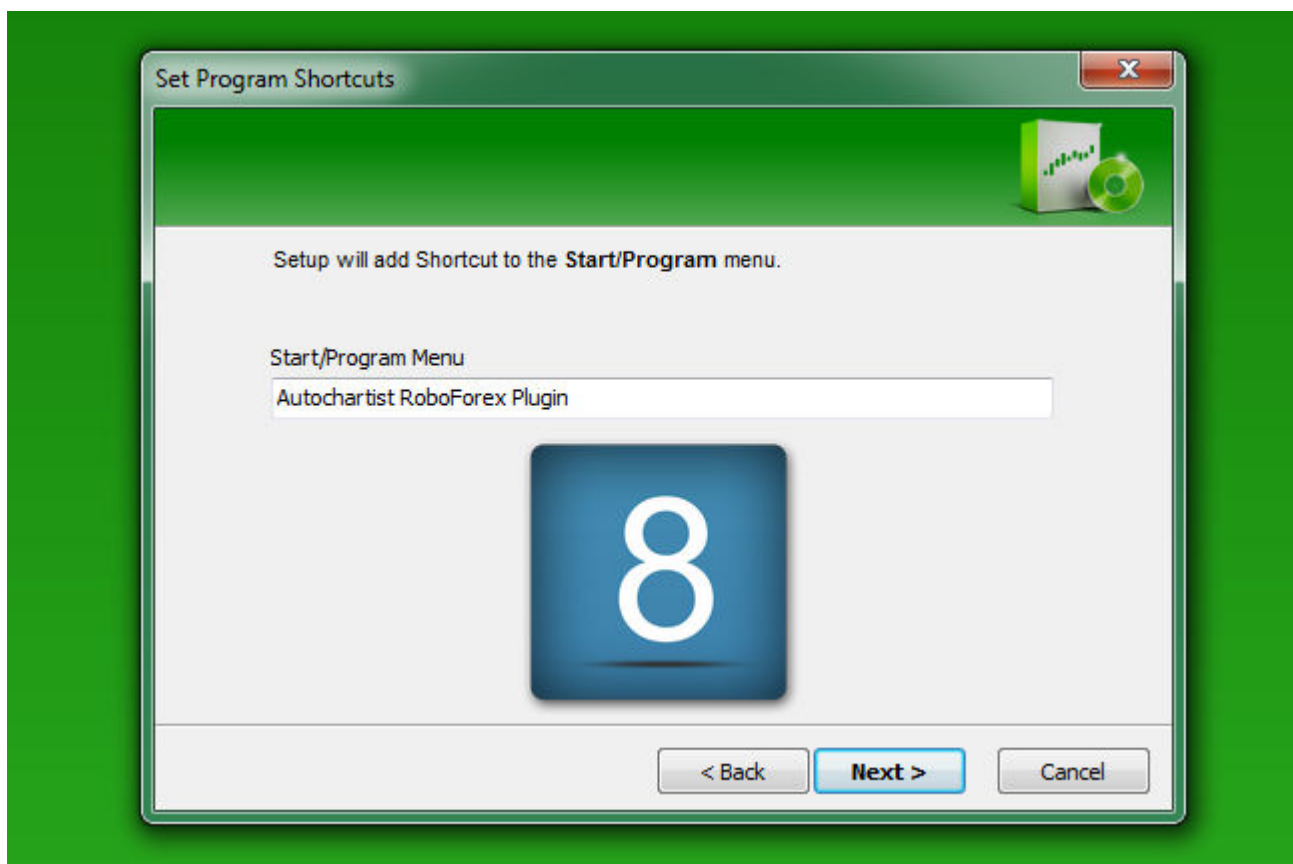

6. To specify the destination directory, click "Browse..." and select the folder in the pop-up window. Then click "Next".

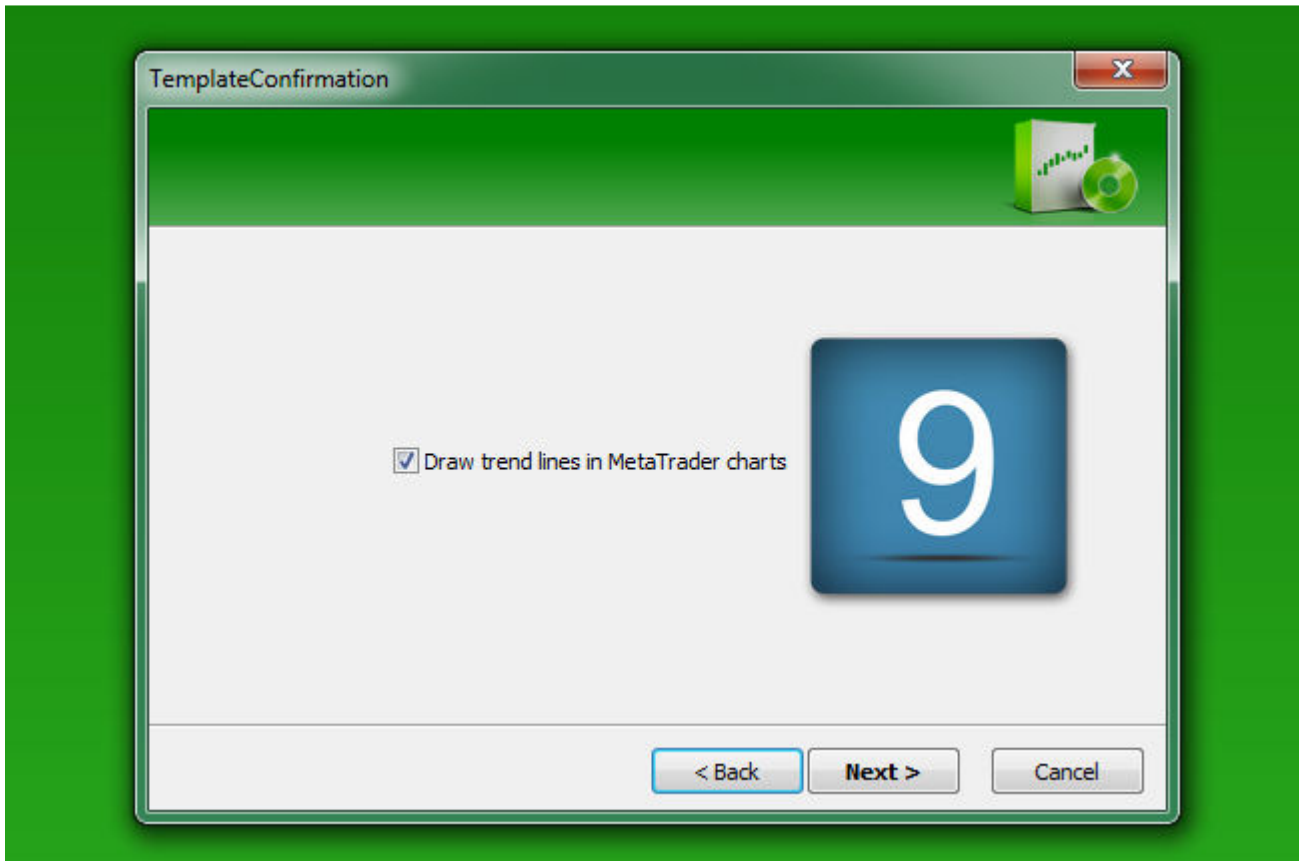

7. Read the notification carefully and click "Next".

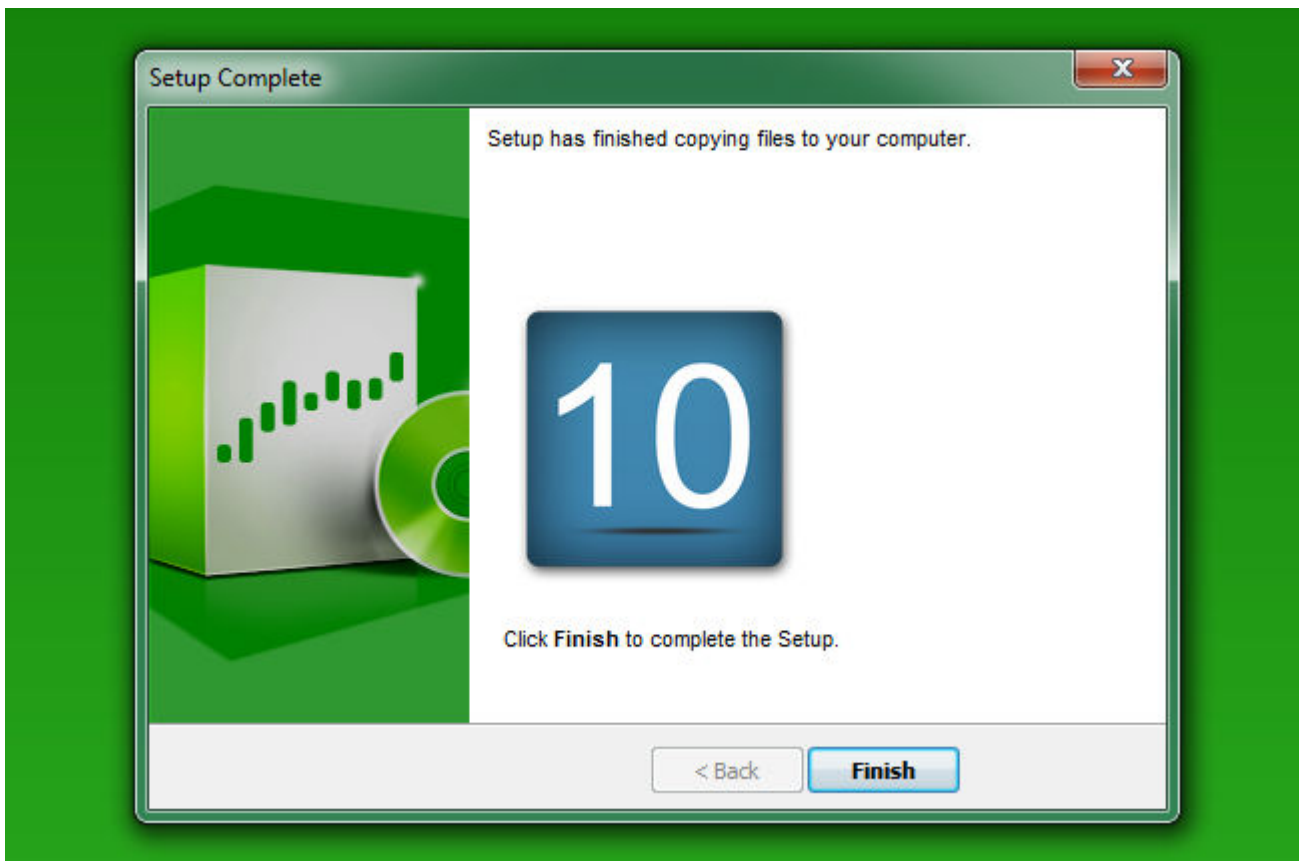

8. Click "Next".

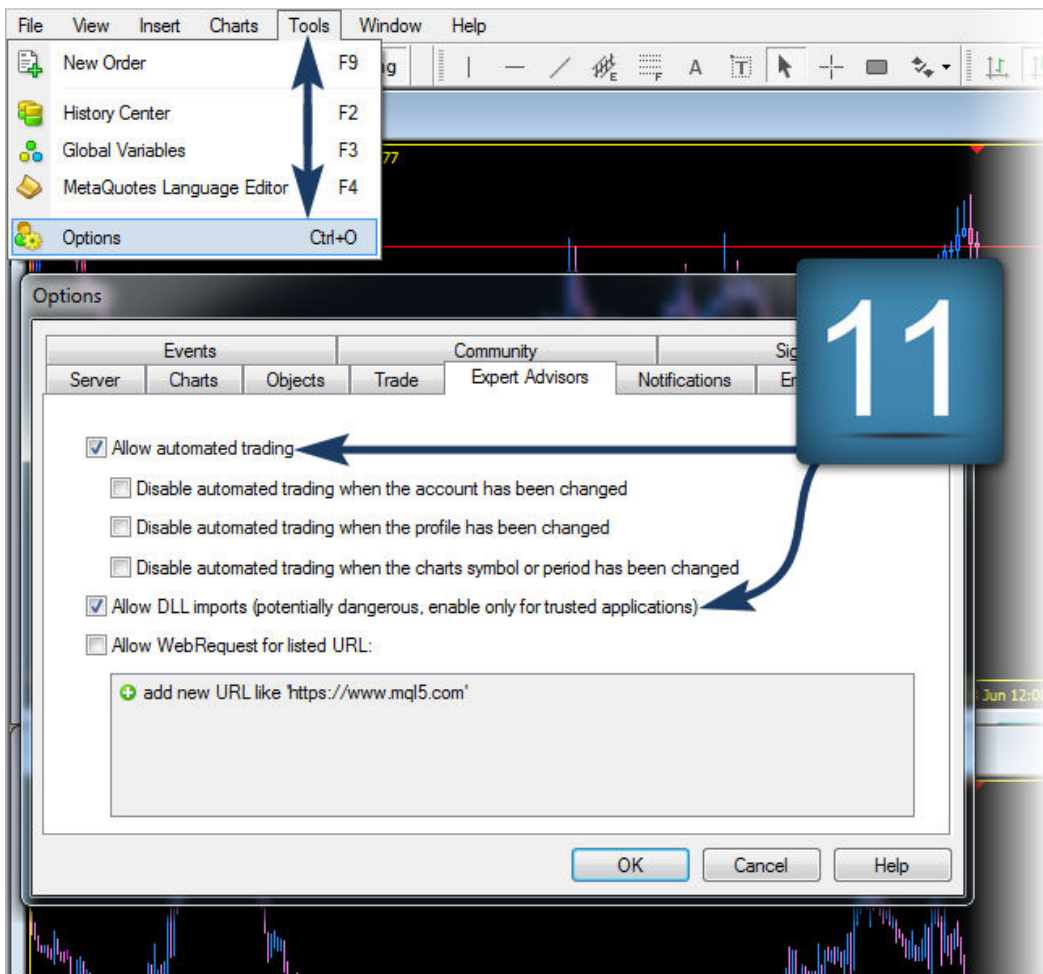

9. Depending on your preferences, tick or untick "Draw trend lines in MetaTrader charts". Click "Next".

10. After the installation is successfully completed, click "Finish".

11. Launch MetaTrader4. Go to "Tools" -> "Options" -> "Expert Advisors" and tick "Allow automated trading" and "Allows DLL imports". Then click "OK".

12. Autochartist indicators will appear in "Indicators" folder of "Navigator" panel.
